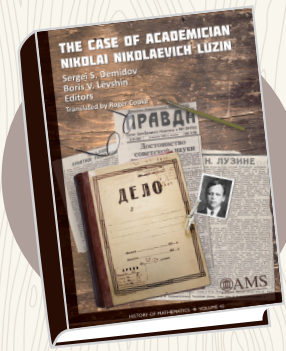
RECENT RELEASES FROM THE AMS



THE CASE OF ACADEMICIAN NIKOLAI NIKOLAEVICH LUZIN

Sergei S. Demidov, *Russian Academy of Sciences, Moscow, Russia* **and Boris V. Lëvshin, Editors**

Translated by Roger Cooke

This book chronicles the 1936 attack on mathematician Nikolai Nikolaevich Luzin during the USSR campaign to "Sovietize" all sciences.

History of Mathematics, Volume 43; 2016; 416 pages; Hardcover; ISBN: 978-1-4704-2608-8; List US$59; AMS members US$47.20; Order code HMATH/43

GALLERY OF THE INFINITE

Richard Evan Schwartz, *Brown University, Providence, RI*

Written in a playful yet informative style, this book is a mathematician's unique view of the infinitely many sizes of infinity.

2016; 187 pages; Softcover; ISBN: 978-1-4704-2557-9; List US$29; AMS members US$23.20; Order code MBK/97
