TRANSACTIONS

OF THE

AMERICAN MATHEMATICAL SOCIETY

EDITED BY

LIPMAN BERS — SAMUEL EILENBERG

G. P. HOCHSCHILD — I. M. SINGER

WITH THE COÖPERATION OF

A. P. CALDERÓN — E. A. CODDINGTON — JEAN DIEUDONNÉ

ELDON DYER — HARLEY FLANDERS — LEON HENKIN

G. A. HUNT — R. V. KADISON — CHARLES LOEWNER

A. N. MILGRAM — J. C. MOORE — G. D. MOSTOW

M. M. SCHIFFER — I. E. SEGAL — H. C. WANG

VOLUME 92

JULY TO SEPTEMBER, 1959

The publication of this volume is supported in part
by the National Science Foundation

PUBLISHED BY THE AMERICAN MATHEMATICAL SOCIETY
PROVIDENCE, RHODE ISLAND

1959

TABLE OF CONTENTS

VOLUME 92, JULY TO SEPTEMBER, 1959

AXT, PAUL. On a subrecursive hierarchy and primitive recursive degrees 85

BADE, W. G. A multiplicity theory for Boolean algebras of projections in Banach spaces 508

BEAR, H. S. A strong maximum modulus theorem for maximal function algebras 465

BELLMAN, RICHARD and COOKE, K. L. Stability theory and adjoint operators for linear differential-difference equations 470

BIRKHOFF, GARRETT and VARGA, R. S. Implicit alternating direction methods 13

COOKE, K. L. The rate of increase of real continuous solutions of certain algebraic functional equations 106

COOKE, K. L. and BELLMAN, RICHARD. Stability theory and adjoint operators for linear differential-difference equations 470

CRAWLEY, PETER and DEAN, R. A. Free lattices with infinite operations 35

DEAN, R. A. and CRAWLEY, PETER. Free lattices with infinite operations 35

EELLS, JAMES, JR. A generalization of the Gauss-Bonnet theorem 142

FRIEDMAN, BERNARD and NIVEN, IVAN. The average first recurrence time 25

GOSSELIN, R. P. Some theorems on L^p Fourier series 291

JOHNSON, G. P. Spaces of functions with values in a Banach algebra 411

JOHNSON, GUY. Functions which have harmonic support 302

JÓNSSON, BJARNI. Representation of modular lattices and of relation algebras 449

KESTEN, HARRY. Symmetric random walks on groups 336

KOBAYASHI, SHOSHICHI. Geometry of bounded domains 267

LANGER, R. E. Formal solutions and a related equation for a class of fourth order differential equations of a hydrodynamic type 371

LLOYD, S. P. A sampling theorem for stationary (wide sense) stochastic processes 1

MICKLE, E. J. On a decomposition theorem of Federer 322

MOREL, A. C. On the arithmetic of order types 48

NEWMAN, D. J. Interpolation in H^∞ 501

NIVEN, IVAN and FRIEDMAN, BERNARD. The average first recurrence time 25

OREY, STEVEN. Model theory for the higher order predicate calculus .. 72

PALAIS, R. S. Natural operations on differential forms 125

ROSENBLOOM, P. C. and WIDDER, D. V. Expansions in terms of heat polynomials and associated functions 220

RUSSELL, H. G. and WALSH, J. L. Integrated continuity conditions and degree of approximation by polynomials or by bounded analytic functions 335

SELIGMAN, G. B. On automorphisms of Lie algebras of classical type ... 430

SIMON, A. B. Vanishing algebras 154

SUZUKI, MICHIO. On characterizations of linear groups, I 191

——— On characterizations of linear groups, II 205

TANAKA, NOBORU. Conformal connections and conformal transformations 168

VARGA, R. S. and BIRKHOFF, GARRETT. Implicit alternating direction methods 13

WALSH, J. L. and RUSSELL, H. G. Integrated continuity conditions and degree of approximation by polynomials or by bounded analytic functions 355

WEISS, MARY. On the law of the iterated logarithm for uniformly bounded orthonormal systems 531

WIDDER, D. V. and ROSENBLOOM, P. C. Expansions in terms of heat polynomials and associated functions 220
