

Mathematical Reviews/MathSciNet Associate Editor

Applications are invited for a full-time position as an Associate Editor of Mathematical Reviews/MathSciNet, to commence as soon as possible after June 1, 2011. The Mathematical Reviews (MR) division of the American Mathematical Society (AMS) is located in Ann Arbor, Michigan, in a beautiful, historic building not far from the campus of the University of Michigan. The editors are employees of the AMS; they also enjoy many privileges at the University. At present, the AMS employs over seventy people including sixteen mathematical editors at Mathematical Reviews/MathSciNet. MR's mission is to develop and maintain the MR Database, from which all MR-related products are produced: MathSciNet and the journals *Mathematical Reviews* and *Current Mathematical Publications*.

An Associate Editor is responsible for a broad area of the mathematical sciences. Editors select articles and books for coverage, classify these items, determine the type of coverage, assign selected items for review to reviewers, and edit the reviews when they are returned.

An individual is sought who has mathematical breadth, with an interest in current developments, and is willing to learn new topics in pure and applied mathematics; the ability to write well in the English language is essential, and the ability to read mathematics in the principal foreign languages is an advantage. Evidence of written scholarship in mathematics is expected. The applicant should normally have several years of relevant academic (or equivalent) experience beyond the Ph.D.

The twelve-month salary will be commensurate with the experience that the applicant brings to the position. Interested applicants are invited to write (or telephone) for further information.

Applications (including curriculum vitae; bibliography; and the names, addresses, phone numbers, and email addresses of at least three references) should be sent to
