

Committee to Select the Winner of the Prize for Exemplary Program or Achievement by a Mathematics Department

General Description

- Committee is standing
- Number of members is five
- Term is three years
- Prize is awarded annually

Principal Activities

The committee selects the awardee. It should make its selection known to the Secretary by October 1 of the year prior to the award.

The award should recognize a department which has distinguished itself by undertaking an unusual or particularly effective program of value to the mathematics community, internally or in relation to the rest of society. Examples might include a department that runs a notable minority outreach program, a department that has instituted an unusually effective industrial mathematics internship program, a department that has promoted mathematics so successfully that a large fraction of its university's undergraduate population majors in mathematics, or a department that has made some form of innovation in its research support to faculty and/or graduate students, or which has created a special and innovative environment for some aspect of mathematics research.

In considering a department's achievements, the committee should seek to recognize achievement that 1) came about by systematic, reproducible changes in programs that might be implemented by others, and/or 2) may have value outside the mathematical community. The committee should keep in mind the full range of departments that make up the mathematics education community -- doctoral-granting, master's-granting, and bachelor's-granting departments --- and should seek to recognize outstanding departmental programs in all these arenas, over time.

Other Activities

Miscellaneous Information

Eligibility: Departments of mathematical sciences in North America that offer at least a bachelor's degree in mathematical sciences.

Nomination process: A letter of nomination may be submitted by one or more individuals. Nomination of the writer's own institution is permitted. The letter should describe the specific program(s) for which the department is being nominated as well as the achievements that make the program(s) an outstanding success, and may include any ancillary documents which support the success of the program(s). The letter should not exceed two pages, with supporting documentation not to exceed an additional three pages.

Selection process. The selection committee shall consist of five members, appointed for three year terms. It should be broadly constituted, involving individuals drawn from various areas of the mathematical profession, such as a person working outside academia, one having experience

with educational issues, or one from a department devoted solely to undergraduate mathematics. In addition, the committee should include at least one mathematician with administrative experience (e.g., a current or recent department chair).

In considering a department's achievements, the committee should seek to recognize achievement that 1) came about by systematic, reproducible changes in programs that might be implemented by others, and/or 2) may have value outside the mathematical community. The committee should keep in mind the full range of departments that make up the mathematics education community -- doctoral-granting, master's-granting, and bachelor's-granting departments -- and should seek to recognize outstanding departmental programs in all these areas, over time.

Deadlines: Nominations are due by September 15 of the year preceding the presentation of this award. The selection committee should make its selection known to the Secretary by December 1. The prize is announced on the AMS website when prize article is about to appear in the *Notices*, which is usually around April 15.

The prize amount is \$5000.

Note to the Chair

Committee chairs should be informed, at the beginning of each fiscal period, of the budget of their committees and cautioned to remain within the budget. Such items as travel reimbursement, accommodations, and meals for guests of any kind fall within these budgets.

Work done by committees on recurring problems may have value as precedent or work done may have historical interest. Because of this, the Council has requested that a central file system be maintained for the Society by the Secretary. Committees are reminded that a copy of every sheet of paper should be deposited (say once a year) in this central file. Confidential material should be noted, so that it can be handled in a confidential manner.

Authorization

Established by Council; 060104, Item 4.6.1;
