MAA Committee on Undergraduate Program in Mathematics
AMS Representative

General Description
· Two representatives serve two year terms

Principal Activities
The Committee is responsible primarily for curricular problems in undergraduate mathematics. That is, problems that are related directly to the institutional structure of college mathematics. These include, but are not limited to, mathematics programs, general and special curricula, courses and course sequences, their organization, content, and mutual relations.

Other Activities

Miscellaneous Information
The Committee does its work by mail, electronic mail, telephone and usually two face-to-face meetings per year (one at the Joint Meetings in January and one at the MAA Mathfest). Members are reimbursed for travel to attend these meetings. This committee has been designated as LEVEL B.

Authorization
Created 29 January 2003 Updated: RJD:1/12; 10/13 Misc Info, membership; DJK 7/14 Misc Info
