

U.S. National Committee on Theoretical and Applied Mechanics AMS Representative

General Description

- One representative serves a four year term which expires on October 31

Principal Activities

To promote theoretical and applied mechanics in the United States and to represent the United States in the International Union of Theoretical and Applied Mechanics.

Other Activities

Miscellaneous Information

The Committee membership includes representatives from about a dozen professional societies, including AMS. Information about the Committee, including its membership is posted on the following website:

<http://sites.nationalacademies.org/PGA/biso/IUTAM/index.htm>

Activities of the committee include attending one committee meeting each year (for which travel expenses in excess if those funded by the USNCTAM will be reimbursed up to level B), participation in the U.S. and the International Congresses of Theoretical and Applied Mechanics, offering proposals for IUTAM Symposia and Summer Schools, and authoring research reports on recent advances in mechanics. Society representatives are also asked to submit an annual report highlighting the mechanics-related activities and awards that were given by that society during the one year time period.

This committee has been designated at **LEVEL B**.

Authorization

updated 7/02; 8/09;

April, 2016: Added miscellaneous information and authorized travel up to level B.
