

AMS Book and Journal Donation Program

The AMS Book and Journal Donation Program matches donors with academic institutions in countries that have a crucial need for research-level publications to support their mathematics programs. Potential donors are invited to contact the AMS with information about books and primary research journals that they are willing to donate to those libraries. (Please note that textbooks and the *Notices* or *Bulletin* are not candidates for this program.) Suitable publications are used to fill existing inquiries, or are listed on our website as an invitation for libraries to request the items. Under this program, donations are shipped not to the AMS but directly to the receiving institutions, and the Society reimburses donors for shipping costs.

For more information, see
