William Duke, John Friedlander and **Henryk Iwaniec*** (iwaniec@math.rutgers.edu), 17
Norchester Drive, Princeton Junction, NJ 08550. *L-functions of Quadratic Fields*.

I shall present new techniques and recent results (joint with W.Duke and J.Friedlander) on L-functions with Grossencharacters of an imaginary quadratic field. In particular we established sharp bounds with respect to the conductor. (Received October 03, 2000)
