962-52-1291 **Luis Montejano*** (`luis@matem.unam.mx`), Instituto de Matematicas, Circuito Exterior, UNAM, Mexico D.F. Mexico, Mexico. *Configurations of points and lines in affine and projective space.* Preliminary report.

We will considere de configuration space, in the spirit of Gelfand-McPherson, of finite set of points or lines in affine and projective space. We will be also interested in the polyhedrization of these spaces of configurations. (Received October 03, 2000)
