G. M Reed* (gmr@comlab.ox.ac.uk), Department of Computer Science, Oxford University
Oxford, England. *Moore Methods and Spaces*. Preliminary report.

In this talk, the lecturer will discuss his experiences in teaching "Moore method" courses for over thirty years at a variety of universities in the US and at Oxford University in the UK. He will also talk about new developments in the theory of Moore spaces, which like the teaching method they inspired, continue to be relevant and worthy of application. (Received September 29, 2000)
