Chacon** ([chacon@uscolo.edu](mailto:chacon@uscolo.edu)), University of Southern Colorado, Department of Mathematics, 2200 Bonforte Blvd, Pueblo, CO 81001-4901. *USC Math Camp for Young Women: 1999 & 2000.*

For the past two summers, University of Southern Colorado department of mathematics faculty have held a one week residential mathematics program for high-school girls. The program gives bright young women an opportunity to study non-Euclidean geometry, probability, statistics and problem-solving through guided group work and hands-on activities. We will discuss fund raising, organizational issues, structure and content, follow-up activities and project evaluation. (Received August 27, 2000)
