

1086-G1-1908 **James Hamblin*** (jehamb@ship.edu), 1871 Old Main Drive, Shippensburg, PA 17257. *Making Assessment Meaningful.*

Many departments struggle with how to make assessment meaningful for their faculty members. At Shippensburg we have a robust assessment program for our math major, and we use assessment data to inform curriculum decisions. I will discuss how the program was developed and how the data we collect help us improve both the curriculum and the assessment program itself. (Received September 24, 2012)
