Thomas Koberda* (koberda@math.harvard.edu), Department of Mathematics, Harvard University, 1 Oxford St., Cambridge, MA 02138. *Right-angled Artin groups and mapping class groups.*

We will consider subgroups of mapping class groups generated by sufficiently large powers of mapping class groups. The possible isomorphism types of these subgroups can be given in terms of right-angled Artin groups. (Received November 17, 2010)
