**Charoenchit Panpetia\***, 39/1 Moo1. Klong\_hae, Hatyai, Songkhla 90110, Thailand. *Theory of Controllity: The relationship between the function and motion of objects.*

There is no difference between displacements of two objects during the same time interval if the displacement of one is zero. This relationship between two objects is called the Controllity. (Received October 25, 2010)
