

1071-30-264 **Abdelkrim Brania*** (abrania@morehouse.edu), 830 Westview Drive S.W., D.H Suite 303,
Atlanta, GA 30314. *Distortion property of a class of embeddings.*

We review the geometric characterization of the class of asymptotically symmetric embeddings in the plane and then we discuss the distortion and boundedness properties of these embeddings in general settings. (Received March 08, 2011)
