N. Manning* (nmanning@uottawa.ca), Dept. of Mathematics and Statistics, 585 King Edward Ave, Ottawa, Ontario K1N6Y7, Canada, and **E. Neher** and **H. Salmasian**. *Global and Local Weyl Modules*. Preliminary report.

A family of infinite-dimensional modules called global Weyl modules was defined and studied by Chari and Pressley over loop algebras $\mathfrak{g} \otimes \mathbf{C}[t, t^{-1}]$, where \mathfrak{g} is a simple complex finite-dimensional Lie algebra. This talk gives an overview of some recent results on these modules. (Received September 09, 2013)
