**Diana White\*** ([diana.white@ucdenver.edu](mailto:diana.white@ucdenver.edu)). *Entry Points and Challenges for Mathematicians in Mathematics Education.*

There are numerous formal documents recommending increased participation by mathematicians in mathematics education. Where does an interested mathematician start? Are some of entry points more accessible than others? What background knowledge is needed? What challenges are there? What support is there to overcome them? In this talk, we explore these and related questions. (Received August 14, 2013)
