**Martin Sambarino\*** ([samba@cmat.edu.uy](mailto:samba@cmat.edu.uy)), CMAT-Facultad de Ciencias, Igua 4225, 11400  
Montevideo, Uruguay. *A journey on Global Dynamics.*

During the last decades there have been a lot of progress on the understanding of dynamics from a generic viewpoint. In this survey talk we will review part of this progress paying particular attention to new features and examples, the relationship between robust phenomena and dynamics of the tangent map and related results.
