**Siu-Hung Ng\*** ([rng@math.lsu.edu](mailto:rng@math.lsu.edu)), Department of Mathematics, Louisiana State University,  
Baton Rouge, LA 70803. *On the classification of Hopf algebras of dimension  $8p$ .*

In this talk, we will report the current status of the classification of Hopf algebras of dimension  $8p$ , where  $p$  is an odd prime. In particular, those Hopf algebras with the Chevalley property are completely classified. The talk is based on joint work with M. Beattie, G. García, and J. Roat. (Received August 11, 2015)
