**Tao Chen\***, 3110 Thomson Avenue, Long Island City, NY 11101, and **Yunping Jiang** and **Linda Keen**. *Bounded geometry and characterization of some transcendental entire maps.*

In this talk, we will follow Thurston's scheme to characterize some transcendental entire maps by a new geometric condition—bounded geometry. This is a joint work of Professor Linda Keen and Yunping Jiang. (Received January 14, 2016)
