**Hamid Kulosman\*** ([hamid.kulosman@louisville.edu](mailto:hamid.kulosman@louisville.edu)), Department of Mathematics, University of Louisville, Louisville, KY 40292, and **Ryan Gipson** ([ryan.gipson@louisville.edu](mailto:ryan.gipson@louisville.edu)), Department of Mathematics, University of Louisville, Louisville, KY 40292. *Atomic and AP semigroup rings.*

We will talk about the atomicity and the AP property of the semigroup rings  $F[X; M]$ , where  $F$  is a field,  $X$  is a variable and  $M$  is a submonoid of the additive monoid of nonnegative rational numbers. (Received March 21, 2017)
