**Seick Kim.** *Weak type-(1,1) estimates for linear elliptic operators.*

I will present some recent work on  $C^1$ ,  $C^2$ , and weak type-(1,1) estimates for linear elliptic operators with coefficients under a condition which is weaker than the classical Dini continuity condition. Both interior and boundary estimates will be discussed. Joint work with Seick Kim. (Received March 06, 2017)
