Min Hoon Kim, David Krcatovich and JungHwan Park* (jp35@rice.edu), 2630 Bissonnet st a2107, Houston, TX 77005. *Links with non-trivial Alexander polynomial.*

We give infinitely many 2-component links with unknotted components which are topologically concordant to the Hopf link, but not smoothly concordant to any 2-component link with trivial Alexander polynomial. This is joint work with Min Hoon Kim and David Krcatovich. (Received March 08, 2017)
