Olga Radko* (radko@math.ucla.edu), 12016 Rose ave, Los Angeles, CA 90066. *AMC preparation in the framework of a Math Circle.*

I will discuss the benefits of incorporating AMC preparation into Math Circle meetings and consider various approaches to preparing students for AMC competitions in the framework of a Math Circle. From helping each student to set his/her own goals to analyzing the results of a contest, it is a never ending cycle of using AMC to improve your own Math Circle program. (Received September 12, 2017)
