Laura DeMarco, Holly Krieger* (hkrieger@dpmms.cam.ac.uk) and Hexi Ye. Dynamical degeneration in the Legendre Lattès family.

I will discuss the uniformity features in the degeneration of the Legendre Lattès family, and explain how to use hybrid space to estimate the dynamical potential and measure of a degenerating map. This is joint work with Laura DeMarco and Hexi Ye. (Received January 27, 2019)
