Rhea Palak Bakshi and **Dionne Kunkel***, dfkunkel@gwu.edu, and **Sujoy Mukherjee**,
Takefumi Nosaka and **Jozef Przytycki**. *The second quandle homology of quasigroup Alexander
quandles.*

For X , an Alexander quandle with invertible $(1 - t)$, we express the second quandle homology of quasigroup Alexander quandles in terms of the exterior algebra of X and present a short self-contained proof of its structure and provide some computational examples. (Received August 24, 2020)
