**Martino Fassina\*** ([martino.fassina@gmail.com](mailto:martino.fassina@gmail.com)) and **Yifei Pan** ([pan@pfw.edu](mailto:pan@pfw.edu)). *Some remarks on the global distribution of the points of finite D'Angelo type.* Preliminary report.

Let  $M$  be a smooth real hypersurface in  $\mathbb{C}^n$ . We present some examples and a stratification result for the set of Levi degenerate points of finite D'Angelo type of  $M$ . (Received August 31, 2020)
