Department, Chicago, IL 60607. *Annihilators of D -modules in mixed characteristic.*

Let R be either a polynomial ring or formal power series ring over a DVR V of mixed characteristic, and let D be the ring of V -linear differential operators on R . I will discuss some recent results concerning annihilators of D -modules in R .

This is a joint work with Rankeya Datta and Nicholas Switala. (Received February 02, 2020)
