CLOSED GEODESICS ON RIEMANNIAN MANIFOLDS

by
WILHELM KLINGENBERG

Published for the
Conference Board of the Mathematical Sciences
by the
American Mathematical Society
Providence, Rhode Island

Expository Lectures
from the CBMS Regional Conference
held at the University of Florida
August 2–6, 1982

1980 *Mathematics Subject Classifications.* Primary 53C22, 58B20, 58D15, 58E10.

Library of Congress Cataloging in Publication Data

Klingenberg, Wilhelm, 1924–

Closed geodesics on Riemannian manifolds.

(Regional conference series in mathematics; no. 53)

"Expository lectures from the CBMS regional conference held at the University of Florida, August 2–6, 1982" – T. p. verso.

Bibliography: p.

1. Riemannian manifolds. 2. Curves on surfaces. I. Conference Board of the Mathematical Sciences. II. Title. III. Series.

Contents

Introduction 1
Chapter 1. The Hilbert manifold of H^1-curves 3
Chapter 2. The loop space and the space of closed curves 15
Chapter 3. The second order neighborhood of a critical point 25
Appendix. The S^1- and the $\mathbf{Z}_2$-action on ΛM 39
Chapter 4. Closed geodesics on spheres 45
Chapter 5. On the existence of infinitely many closed geodesics 59
References 77
