

Contents

Preface	vii
List of Participants	ix
Mathematics in General Education at KAIST KI HYOUNG KO	1
Harnessing the Enthusiasm of our Best and Brightest Students for Mathematics DEBORAH HUGHES HALLETT	7
Interactive Geometry and Multivariable Calculus on the Internet THOMAS BANCHOFF	17
Helping New Mathematics Faculty to Develop into Successful Teachers and Scholars CHRISTINE STEVENS	33
Computer Algebra and Human Algebra WILLIAM G. MCCALLUM	43
Teaching Mathematics Graduate Students to Teach: An International Perspective SOLOMON FRIEDBERG	51
Computers Supporting Mathematical Insight—Two Case Studies ERICH NEUWIRTH	57
Mathematics—at your service T.M. MILLS AND PETER SULLIVAN	63
A Leverage in Learning HURIYE ARIKAN	77
Towards Inquiry-Oriented Mathematics Instruction in the University OH NAM KWON	87
The Influence of Technology on Mathematics Instruction: Concerns and Challenges WARREN PAGE	97
Research Experiences with Undergraduates: A discussion from the mathematical educational point of view CHI-KWONG LI	111

Problem Solving: What I have learned from my students JAMES SANDEFUR	117
Guidelines for Using Computers Creatively in Mathematics Education ULRICH KORTENKAMP	129
Suggestions from the Real World on Improving Math Education LEON H. SEITELMAN	139
Spreadsheets in the Mathematics Classroom ROBERT S. SMITH	149
Incorporating MATLAB [®] into University Mathematics Programs ALEXANDER STANOYEVITCH	157
A CAS Supported Environment for Learning and Teaching Calculus ELENA VARBANOVA	169
Experience with Blended Learning: IT Support Inside the Classroom and Beyond GABRIELE UCHIDA	177
On the mathematics courses for social science majors SUNG-OCK KIM	187
On Mathematical Contents of Computer Science Contests S. O. SHILOVA AND N. V. SHILOV	193
Curriculum for Teaching How Mathematics is Applied to Real World in Teacher Education Course at a Japanese College MASAHIRO NARITA	205
Workshop in Excel DEANE ARGANBRIGHT, ERICH NEUWIRTH, AND ROBERT S. SMITH	215
