

Contents

Preface	vii
Analysis and efficient computation for the dynamics of two-component Bose-Einstein condensates WEIZHU BAO	1
Quantised vortices, travelling coherent structures and superfluid turbulence NATALIA G. BERLOFF	27
Existence and properties of travelling waves for the Gross-Pitaevskii equation FABRICE BÉTHUEL, PHILIPPE GRAVEJAT, and JEAN-CLAUDE SAUT	55
On the semi-classical limit for the nonlinear Schrödinger equation RÉMI CARLES	105
The Gross-Pitaevskii equation in the energy space PATRICK GÉRARD	129
Scattering theory for the Gross-Pitaevskii equation KENJI NAKANISHI	149
Periodic oscillations of dark solitons in parabolic potentials DMITRY E. PELINOVSKY and PANAYOTIS G. KEVREKIDIS	159
