

Contents

Preface	vii
The radical of the four generated algebra of alternating type FERRAN CEDÓ, ERIC JESPERS, and JAN OKNIŃSKI	1
Globalization of partial actions on semiprime rings W. CORTES and MIGUEL FERRERO	27
The Colombeau quaternion algebra W. CORTES, M. FERRERO, and S. O. JURIAANS	37
Parabolic subgroups of real direct limit Lie groups ELIZABETH DAN-COHEN, IVAN PENKOV, and JOSEPH A. WOLF	47
Parabolic sets of roots IVAN DIMITROV, VYACHESLAV FUTORNY, and DIMITAR GRANTCHAROV	61
Some results on *-minimal algebras with involution ONOFRIO MARIO DI VINCENZO and ERNESTO SPINELLI	75
Invariants of partial group algebras of finite p -groups M. DOKUCHAEV and J. J. SIMÓN	89
Units of $\mathbb{Z}C_p$ RAUL ANTONIO FERRAZ	107
Algebraic Elements as Free Factors in Simple Artinian Rings JAIRO Z. GONÇALVES and MAZI SHIRVANI	121
Special units, unipotent units and free groups in group algebras JAIRO Z. GONÇALVES and PAULA M. VELOSO	127
Explicit realizations of simple weight modules of classical Lie superalgebras DIMITAR GRANTCHAROV	141
Combinatorial aspects in the computation of proper multiplicities S. A. JORGE, V. R. DA SILVA, and A. C. VIEIRA	149
An estimate of the dimension of the varieties of alternative and Jordan algebras IRYNA KASHUBA and IVAN SHESTAKOV	165
On growth of almost polynilpotent Lie algebras S. G. KLEMENTYEV and V. M. PETROGRADSKY	173

Graded identities for Lie algebras PLAMEN KOSHLUKOV, ALEXEI KRASILNIKOV, and DIOGO D.P. SILVA	181
Polynomial codimension growth of graded algebras DANIELA LA MATTINA	189
Euclidean Bianchi groups are conjugacy separable I.S. LIMA and P.A. ZALESSKII	199
Comparability, distributivity and non-commutative ϕ -rings CHRISTIAN LOMP and ALVERI SANT'ANA	205
Algebras having bases consisting entirely of units SERGIO LÓPEZ-PERMOUTH, JEREMY MOORE, and STEVE SZABO	219
On the growth of varieties of algebras S. MISHCHENKO and A. VALENTI	229
0-Dialgebras with bar-unity, Rota-Baxter and 3-Leibniz algebras A. P. POZHIDAEV	245
The Golod-Shafarevich counterexample without Hilbert series ALON REGEV and AMITAI REGEV	257
Automorphism groups of semi-homogeneous trees HUMBERTO LUIZ TALPO and MARCELO FIRER	265
