Foreword by <i>the Editors</i>	vii
On becoming a mathematician: markers and decisive moments in Alberto P. Calderón's early life, by <i>Alexandra Bellow Calderón</i>	ix
Alberto P. Calderón the mathematician, his life and works, by <i>Michael Christ, Carlos E. Kenig and Cora Sadosky</i>	xv
Curriculum Vitae	xxi
Publications of A. P. Calderón	xxv
Photos	xxxii
Calderón Selecta List	xxxv
List of Commentators	xxxix
Calderón Selecta Papers	1
(1) On theorems of M. Riesz and A. Zygmund A. P. CALDERÓN	3
(2) On the behaviour of harmonic functions at the boundary A. P. CALDERÓN	7
(3) On a theorem of Marcinkiewicz and Zygmund A. P. CALDERÓN	15
(4) On the existence of certain singular integrals A. P. CALDERÓN AND A. ZYGMUND	23
(5) A general ergodic theorem A. P. CALDERÓN	79
(6) Singular integrals and periodic functions A. P. CALDERÓN AND A. ZYGMUND	89
(7) Analytic functions of several Banach algebra elements RICHARD ARENS AND A. P. CALDERÓN	113
(8) On singular integrals A. P. CALDERÓN AND A. ZYGMUND	127

CONTENTS

(9) Algebras of certain singular operators A. P. CALDERÓN AND A. ZYGMUND	149
(10) Singular integral operators and differential equations A. P. CALDERÓN AND A. ZYGMUND	161
(11) Uniqueness in the Cauchy problem for partial differential equations A. P. CALDERÓN	183
(12) Lebesgue spaces of differentiable functions and distributions A. P. CALDERÓN	205
(13) Existence and uniqueness theorems for systems of partial differential equations A. P. CALDERÓN	223
(14) Convolution operators on Banach space valued functions A. BENEDEK, A. P. CALDERÓN, AND R. PANZONE	273
(15) Boundary value problems for elliptic equations A. P. CALDERÓN	283
(16) Intermediate spaces and interpolation, the complex method A. P. CALDERÓN	285
(17) Commutators of singular integral operators A. P. CALDERÓN	363
(18) Spaces between L^1 and L^∞ and the theorem of Marcinkiewicz A. P. CALDERÓN	371
(19) Singular integrals A. P. CALDERÓN	399
(20) Algebras of singular integral operators A. P. CALDERÓN	439
(21) The analytic calculation of the index of elliptic equations A. P. CALDERÓN	477
(22) Ergodic theory and translation-invariant operators A. P. CALDERÓN	479
(23) On the boundedness of pseudo-differential operators A. P. CALDERÓN AND RÉMI VAILLANCOURT	485
(24) A class of bounded pseudo-differential operators A. P. CALDERÓN AND RÉMI VAILLANCOURT	491
(25) Cauchy integrals on Lipschitz curves and related operators A. P. CALDERÓN	495

CONTENTS

(26) An atomic decomposition of distributions in parabolic H^p spaces A. P. CALDERÓN	499
(27) Applications of the Cauchy integral on Lipschitz curves A. P. CALDERÓN, C. P. CALDERÓN, E. FABES, M. JODEIT, AND N. M. RIVIERE	509
(28) Commutators, singular integrals on Lipschitz curves and applications A. P. CALDERÓN	513
(29) On an inverse boundary value problem A. P. CALDERÓN	525
(30) Hopf's ergodic theorem for particles with different velocities and the 'strong sweeping out property' A. BELLOW, A. P. CALDERÓN, AND U. KRENGEL	531
(31) A weak-type inequality for convolution products A. BELLOW AND A. P. CALDERÓN	537
(32) A representation formula and its applications to singular integrals A. P. CALDERÓN AND C. P. CALDERÓN	545
Calderón Selecta Commentary	551
Comments on (5), (14), (22), (30), and (31) DONALD L. BURKHOLDER	553
Commentary on two papers of A. P. Calderón MICHAEL CHRIST	559
Commentary on Calderón's papers on interpolation CHARLES FEFFERMAN and ELIAS M. STEIN	567
Comments on several papers of A. P. Calderón CHARLES FEFFERMAN and ELIAS M. STEIN	573
On the analytical side of the proof of the Index Theorem, some personal recollections PAUL MALLIAVIN	589
Complex analysis and operator theory in Alberto Calderón's work YVES MEYER	593
Comments on some papers of Alberto P. Calderón LOUIS NIRENBERG	607
Commentary on Calderón's paper (29), "On an Inverse Boundary Value Problem" GUNTHER UHLMANN	623
Acknowledgments	637
