

Contents

L_p -estimates for solutions to second order parabolic equations YU. A. ALKHUTOV and A. N. GORDEEV	1
Wavelet decompositions on nonuniform grids YU. K. DEM'YANOVICH	23
Newton polyhedra and estimates for differential operators A. I. KAROL'	43
Nodal lines and uniqueness of solutions to linear water-wave problems N. G. KUZNETSOV	61
On integral models of algebraic tori and affine toric varieties B. E. KUNYAVSKII and B. Z. MOROZ	75
A geometrical approach to computation of the optimal solution to the rectangle packing problem A. I. LIPOVETSKII	93
Nonstationary Maxwell system with nonhomogeneous boundary conditions in domains with conical points S. MATYUKEVICH and P. NEITTAANMÄKI	111
Exceptional sets for the derivatives of Blaschke products JAVAD MASHREGHI and EMMANUEL FRICAIN	163
Asymptotics of solutions and artificial boundary conditions in the transmission problem with a layer-like inhomogeneity S. A. NAZAROV and I. L. SOFRONOV	171
