### TEXT-BOOK OF MECHANICS

IN FIVE VOLUMES

EACH VOLUME SOLD SEPARATELY

By LOUIS A. MARTIN, JR.

Professor of Mechanics, Stevens Institute of Technology

#### THEORETICAL MECHANICS

Volume I. STATICS

12mo, xii + 142 pages,

167 figures.

Cloth. \$1.25 net.

The study of this subject can advantageously be begun with such knowledge of mathematics as is required for admission to most Colleges and all Technical Schools.

A number of the problems contained in this book have been selected from examinations set at Stevens Institute.

#### Volume II. KINEMATICS AND KINETICS

12mo. iv +214 pages.

91 figures.

Cloth. \$1.50 net.

Intended for students possessing a knowledge of the methods of plane Analytic Geometry and Calculus. Those who are acquainted with Differential Calculus may also undertake this study, provided they are pursuing a course in the Integral Calculus.

#### APPLIED MECHANICS

#### Volume III. MECHANICS OF MATERIALS

12mo, xiii + 229 pages,

111 figures.

Cloth, 1.50 net.

This book is written for beginners who have had some previous training in theoretical mechanics. It is a text-book and not a treatise on the subject.

Contains helpful suggestions and sufficient material in the way of explanation and example so that the student will not become discouraged.

#### Volume IV. APPLIED STATICS

12mo, xii + 198 pages,

141 figures.

Cloth. \$1.50 net.

This volume serves as an introduction to mechanical as well as to structural engineering, as statics is applied both to structures and machines.

#### Volume V. APPLIED KINETICS

(IN PREPARATION)
