## Mathematician — Ph.D.

*The Aircraft Nuclear  
Propulsion Department  
of General Electric  
has opened the position  
of Supervisor—  
Mathematical Analysis Unit*

This is a career opening for a mathematician who will be expected to provide the organization with a broad capability in the field of mathematics through the quality, timeliness, applicability and quantity of the technical contributions made by the group he supervises.

The significant areas of his responsibility are to administer and technically lead a staff of approximately 20, comprised mainly of mathematicians working in the fields of heat transfer, fluid flow, vibration, numerical analysis, Monte Carlo techniques, and other problems associated with mathematical physics and the mathematics of modern engineering.

Most favorably reviewed will be resumes from mathematicians with a PhD and some computer programming experience. Salary is fairly well above the basic five figure mark.

*Write in confidence,  
including salary requirements to:*

Mr. P. W. Christos, Div. 123-MG

**AIRCRAFT NUCLEAR PROPULSION DEPT.**

**GENERAL  ELECTRIC**

P.O. Box 132, Cincinnati, Ohio

# THE PROCEEDINGS OF THE SYMPOSIA IN APPLIED MATHEMATICS

These symposia were held under the auspices of the American Mathematical Society and other interested organizations. The Society itself published the first two volumes. The McGraw-Hill Book Company, Inc., published and sold Numbers 3 through 8. *These six volumes* have now been transferred to the American Mathematical Society by special arrangement with the McGraw-Hill Book Company, Inc. Orders should be placed through the Society.

Members of the Society will henceforth be entitled to the usual 25% discount on all of the volumes. Heretofore this privilege was available to members only for the first two volumes.

**HAVE YOU REGISTERED WITH THE  
MATHEMATICAL SCIENCES SECTION  
of the  
NATIONAL REGISTER OF SCIENTIFIC  
AND TECHNICAL PERSONNEL?**

At the request of the National Science Foundation, the American Mathematical Society is assembling and maintaining a register of mathematicians and mathematical scientists. The mathematics register is a section of the National Register of Scientific and Technical Personnel, which is an official responsibility of the Foundation. The purpose of the Register is to provide up-to-date information on the scientific manpower resources of the United States.

As a result of the splendid cooperation accorded to the project by most of the mathematicians and mathematical scientists who have received questionnaires to fill in, the mathematical section of the Register is now remarkably complete. However there are still a few gaps to be filled in.

If you have received a National Register questionnaire from the Society, won't you please fill it in now and send it to the Headquarters Offices of the Society at 190 Hope Street, Providence 6, Rhode Island?

If you have never received a questionnaire and feel that you are qualified for inclusion in the Register, please drop us a note to that effect at the above address.

## **THE PHYSICS OF FLUIDS**

EDITOR, F. N. FRENKIEL,

*Applied Physics Lab., Johns Hopkins University, Silver Spring, Md.*

Devoted to original contributions to the physics of fluids covering kinetic theory, statistical mechanics, structure and general physics of gases, liquids, plasmas and other fluids and including:

- Magneto-Fluid Dynamics
- Ionized Fluid and Plasma Physics
- Shock and Detonation Wave Phenomena
- Dynamics of Compressible Fluids
- Boundary Layer and Turbulence Phenomena
- Liquid State Physics and Superfluidity
- Hypersonic Physics
- Rarefied Gas Phenomena
- Upper Atmosphere Phenomena
- Physical Aeronomy
- Transport Phenomena
- Hydrodynamics

As well as certain basic aspects of physics of fluids bordering geophysics, astrophysics, biophysics and other fields of science:

Bi-monthly: Non Members—\$10.00 domestic, \$11.00 foreign  
Members of member societies—\$8.00 domestic, \$9.00 foreign  
A.P.S. in lieu—\$4.00 domestic, \$5.00 foreign

*Orders and inquiries should be sent to:*

**American Institute of Physics, 335 East 45 Street, New York 17, N.Y.**

# MATHEMATICIANS

## THE AMHERST LABORATORY

*Sylvania's Center for Communications  
Research and Development*

...stresses basic and applied research on mathematical topics related to communications. Broad areas of mathematics being explored in current investigations include:

**FINITE GROUP THEORY  
NUMBER THEORY  
STATISTICAL DECISION THEORY  
FOURIER ANALYSIS OF CODED TRANSMISSIONS  
STATISTICAL THEORY OF COMMUNICATIONS & NOISE  
THEORETICAL & APPLIED PROBABILITY THEORY**

### Changing interests

of members of the Mathematics Section are frequently reflected in the topics under study.

### Immediate openings

exist for mathematicians at several levels of training and experience.

### Location

of the Amherst Laboratory is in residential Williamsville, northeast of Buffalo.

*Address confidential inquiries to*

**Dr. R. L. San Soucie**

**Amherst Laboratory / SYLVANIA ELECTRONIC SYSTEMS**

*A Division of*

**SYLVANIA**

Subsidiary of  
**GENERAL TELEPHONE & ELECTRONICS**

1127 Wehrle Drive, Amherst 21, N. Y.

## Journals Published by the American Mathematical Society

---

### Bulletin of the American Mathematical Society

This journal is the official organ of the Society. It reports official acts of the Society and the details of its meetings. It contains some of the officially invited addresses presented before the Society, reviews of advanced mathematical books, research problems and a department of research announcements.

The subscription price is \$7.00 per annual volume of six numbers.

Research Problems and Invited Addresses offered for publication should be sent to B. J. PETTIS, Department of Mathematics, University of North Carolina, Chapel Hill, N. C.; Book reviews to J. C. OXTOBY, Bryn Mawr College, Bryn Mawr, Pa. Research Announcements offered for publication should be sent to some member of the Council of the Society, and communicated by him to E. E. MOISE, Department of Mathematics, University of Michigan, Ann Arbor, Mich. All other communications to the editors should be sent to the Managing Editor, J. C. OXTOBY.

The members of the Council for 1959 are: E. F. Beckenbach, E. G. Begle, R. E. Bellman, Lipman Bers, R. H. Bing, Garrett Birkhoff, R. P. Boas, Salomon Bochner, Richard Brauer, R. H. Bruck, S. S. Chern, J. A. Dieudonné, J. L. Doob, Samuel Eilenberg, P. R. Garabedian, A. M. Gleason, J. W. Green, P. R. Halmos, Edwin Hewitt, Einar Hille, G. P. Hochschild, G. B. Huff, Nathan Jacobson, Irving Kaplansky, D. H. Lehmer, L. H. Loomis, E. J. McShane, W. S. Massey, A. E. Meder, Jr., E. E. Moise, J. C. Oxtoby, B. J. Pettis, R. S. Pierce, Everett Pitcher, G. de B. Robinson, P. C. Rosenbloom, Walter Rudin, Hans Samelson, I. J. Schoenberg, I. E. Segal, N. E. Steenrod, A. W. Tucker, S. M. Ulam, J. W. T. Youngs, Leo Zippin.

### Proceedings of the American Mathematical Society

This journal is devoted entirely to research in pure and applied mathematics and is devoted principally to the publication of original papers of moderate length.

The subscription price is \$11.00 per annual volume of six numbers.

Papers in algebra and number theory should be sent to IRVING KAPLANSKY, Eckhart Hall, University of Chicago, Chicago 37, Ill.; in probability, real variables, logic and foundations to P. R. HALMOS, Eckhart Hall, University of Chicago, Chicago 37, Ill.; in abstract analysis to either P. R. HALMOS or IRVING KAPLANSKY; in geometry and topology to HANS SAMELSON, Department of Mathematics, University of Michigan, Ann Arbor, Mich.; in other branches of analysis, applied mathematics, and all other fields to R. P. BOAS, Lunt Building, Northwestern University, Evanston, Ill. All other communications to the editors should be addressed to the Managing Editor, IRVING KAPLANSKY.

### Transactions of the American Mathematical Society

This journal is devoted entirely to research in pure and applied mathematics, and includes in general longer papers than the PROCEEDINGS.

Four volumes of three numbers each will be published in 1958. The subscription price is \$8.00 per volume.

Papers in analysis, applied mathematics and probability should be sent to LIPMAN BERS, Institute of Mathematical Sciences, New York University, New York, N. Y.; in topology, and logic and foundations to SAMUEL EILENBERG, Hamilton Hall, Columbia University, New York 27, N. Y.; in algebra and number theory to G. P. HOCHSCHILD, Department of Mathematics, University of California, Berkeley 4, Calif.; in geometry and abstract analysis to I. M. SINGER, Massachusetts Institute of Technology, Cambridge 39, Mass. All other communications to the editors should be addressed to the Managing Editor, SAMUEL EILENBERG.

### Mathematical Reviews

This journal contains abstracts and reviews of the current mathematical literature of the world. It is sponsored by thirteen mathematical organizations, located both in the United States and abroad.

MATHEMATICAL REVIEWS is published monthly, excepting July. The subscription price is \$50.00 per annual volume of eleven numbers.

### Notices of the American Mathematical Society

This journal announces the programs of the meetings of the Society. It carries the abstracts of all contributed papers presented at the meetings of the Society and publishes news items of interest to mathematical scientists.

The subscription price is \$7.00 per annual volume of 7 numbers. A single copy is \$2.00.

All communications should be addressed to the Editor J. H. CURTISS, 190 Hope Street, Providence 6, R. I. News items and insertions for each issue must be in the hands of the editor on or before the deadline for the abstracts of the papers to be presented in the meetings announced in that issue. These deadlines are published regularly on the inside front cover page.

## Some Recent Publications of the Society

<b>E. Snapper.</b> <i>Cohomology theory and algebraic correspondences.</i> Memoir 33.	\$ 1.90
<b>L. P. Eisenhart.</b> <i>Non-Riemannian geometry.</i> Published in 1927 and reprinted in 1958, Colloquium Volume 8.	\$ 4.90
<b>R. S. Pierce.</b> <i>Translation lattices.</i> Memoir 32.	\$ 1.70
<b>E. Hille and R. S. Phillips.</b> <i>Functional analysis and semi-groups.</i> An enlarged and completely revised edition of Colloquium Volume 31, of the same title, by Hille.	\$13.80
<b>J. L. Walsh.</b> <i>Interpolation and approximation.</i> An enlarged and extensively revised edition of Colloquium Volume 20.	\$ 7.00
<b>W. H. Gottschalk and G. A. Hedlund.</b> <i>Topological dynamics.</i> Colloquium Volume 36.	\$ 5.10
<b>N. Jacobson.</b> <i>Structure of rings.</i> Colloquium Volume 37.	\$ 7.70
<b>C. Chevalley.</b> <i>Introduction to the theory of algebraic functions of one variable.</i> Mathematical Surveys Volume 6.	\$ 4.00
<b>S. Bergman.</b> <i>The kernel function and conformal mapping.</i> Mathematical Surveys Volume 5.	\$ 4.00
<b>O. F. G. Schilling.</b> <i>The theory of valuations.</i> Mathematical Surveys Volume 4.	\$ 6.00
<b>M. Marden.</b> <i>The geometry of the zeros of a polynomial in a complex domain.</i> Mathematical Surveys Volume 3.	\$ 5.00
<b>Russian Translations.</b> Volume 8. <i>Twelve papers on function theory, probability, and differential equations.</i>	\$ 6.00
<b>Russian Translations.</b> Volume 9. <i>Four papers on group theory.</i>	\$ 5.00
<b>Russian Translations.</b> Volume 10. <i>Thirteen papers on analysis</i>	\$ 6.60
<b>Russian Translations.</b> Volume 11. <i>Four papers on topology.</i>	\$ 5.90
