Preface

Richard V. Kadison has been a towering figure in the study of operator algebras for more than 65 years. His research and leadership in the field have been fundamental in the development of the subject, and his influence continues to be felt through his work and the work of his many students, collaborators, and mentees.

This volume contains the proceedings of an AMS Special Session *Operator Algebras and Their Applications: A Tribute to Richard V. Kadison*, held on January 10-11, 2015, in San Antonio, Texas. The table of contents reveals contributions by an outstanding group of internationally known mathematicians. Most of the papers are expanded versions of the authors' talks in San Antonio.

This volume features expository papers as well as original research articles, and Dick Kadison's influence can be seen throughout. All the articles have been carefully refereed and will not appear in print elsewhere. All of the contributors are esteemed members of the mathematical community, and for this reason we have elected to simply present the papers in alphabetical order by the first-named author.

We the editors thank everyone who participated in both the AMS Special Session and the preparation of this volume. Without the hard work of the authors and the referees, as well as the editorial staff of the American Mathematical Society, this volume would have never seen the light of day. We especially thank Christine M. Thivierge for her invaluable assistance and patience. In addition, we thank Gestur Olafsson for his permission to use the photo of Dick that appears in the volume, and also Bogdan Oporowski for his nice editing work on the picture.

Finally, we express our great appreciation for Dick Kadison. The subject of operator algebra, and indeed mathematics itself, would have been much different, and poorer, without his contributions.

List of Participants

Roy M. Araizu
San Jose State University

Joe Ball
Virginia Tech University

Paul Baum
Pennsylvania State University

Alex Bearden
University of Houston

David P Blecher
University of Houston

Rémi Boutonnet
University of California, San Diego

Michael Brannan
University of Illinois,
Urbana-Champaign

Joel Cohen
University of Maryland

Ken Davidson
University of Waterloo

Bruce Doran
Accenture

Bob Doran
Texas Christian University

Ronald Douglas
Texas A&M University

Ken Dykema
Texas A&M University

Edward Effros
University of California, Los Angeles

Søren Eilers
University of Copenhagen

George Elliott
University of Toronto

Adam Fuller
University of Nebraska, Lincoln

Liming Ge
University of New Hampshire and
Chinese Academy of Sciences

Elizabeth Gillaspay
University of Colorado, Boulder

James Glimm
Stony Brook University

Jan Gregus
Abraham Baldwin Agricultural College

Benjamin Hayes
Vanderbilt University

Nigel Higson
Pennsylvania State University

Richard Kadison
University of Pennsylvania

David Kerr
