Distribution of Faculty Salaries for Academic Year 2007-2008

DIRECTIONS

Please read carefully and refer to example on reverse.

In each box, write the number of faculty, as defined below, whose academic year salary falls within the given salary interval and professional rank. *Report salaries falling on an end point of a range in the higher range.* For example, a \$45,000 salary should be reported as between \$45,000 and \$50,000.

Faculty means any member of the department, regardless of which courses they teach, who is *tenured* or holds a *tenure-track* position, is *full-time* with the institution, and *at least half-time* in the department. If your institution does not grant tenure, report those with renewable full-time appointments. *Faculty on leave should be included.*

New Hires means any tenured/tenure-track faculty whose appointment begins Fall 2007.

Salary means payment by the institution for full-time work for the academic year, *9-10 months*, even if paid over 11-12 months.

Number of faculty with 9-10 month appointments:

Number of faculty with 11-12 month appointments (for these appointments multiply the annual salaries by 0.8):

Note: The one Assistant Professor whose salary is listed between \$40,000 and \$45,000 is the one on a 11-12 month appointment. His salary for the appointment is \$52,000, but this figures is multiplied by 0.8 to reach the correct academic year salary of \$41,600 used in all sections of this form.
