

## Math Awareness Month (MAM) Timetable

### JPBM organizations: AMS, AMSTAT, MAA and SIAM

Below offers a *guideline* for each year's organizing society to develop materials and web content *before* early January—when the MAM theme is officially announced on the web and posters are available at the Joint Mathematical Meetings, and in time for advertising deadlines for the spring issues of the 4 organizations' member journals, and so that mathematics departments have time to organize their own events prior to April. See [www.mathaware.org](http://www.mathaware.org) for examples of past posters and content. Content for the website should be sent to the AMS Public Awareness Office ([paoffice@ams.org](mailto:paoffice@ams.org)), who coordinates the prep and posting of the pages.
