By order of the Council of the Society, this volume is dedicated to
FRANK NELSON COLE
in appreciation of his devotion to the Society during his twenty-six years as Secretary and in recognition of his efficient leadership in the editorial work of the Bulletin for the past twenty-four years.
WENTWORTH-SMITH-BROWN
JUNIOR HIGH SCHOOL MATHEMATICS

A three-book course in practical mathematics—live, varied, teachable.

All the fine features which make the Wentworth-Smith books first in the field are here adapted to the junior high school's peculiar demands.
