Publications of the American Mathematical Society

Transactions of the American Mathematical Society. Published quarterly. Subscription price for annual volume, $7.00; to members of the Society, $5.25.

Mathematical Papers of the Chicago Congress, 1893. Price, $4.00; to members, $2.00.

Evanston Colloquium Lectures, 1893. By Felix Klein. Price, $1.25; to members, 75 cents.

Princeton Colloquium Lectures, 1909. By G. A. Bliss and Edward Kasner. Price, $2.50; to members, $2.00.

Madison Colloquium Lectures, 1913. By L. E. Dickson and W. F. Osgood. Price, $2.50; to members, $2.00.

Address all orders to American Mathematical Society, 501 West 116th Street, New York, N. Y.

SCHORLING AND REEVE'S
GENERAL MATHEMATICS

"The mathematics that people use".

It trains pupils in the mathematics of everyday life.

It teaches the simple elements of algebra, geometry, trigonometry, etc., in their logical interrelation.

It is based on the "Problem Method" of teaching.

It is easily understood by first-year high-school pupils.

The mathematical idea of function is the organizing and unifying principle.

There is abundant material arranged in a way that allows selection to fit local conditions.
