OFFICIAL COMMUNICATIONS

MEETINGS OF THE SOCIETY

SUMMER MEETING: NEW HAVEN, CONNECTICUT, September 2-5, 1947.

Abstracts must have been in the hands of Associate Secretary T. R. Hollcroft, American Mathematical Society, 531 West 116th Street, New York 27, N.Y., not later than July 29. The Colloquium Lectures on Abstract algebraic geometry will be given by Professor Oscar Zariski. By invitation of the Committee to Select Hour Speakers for Annual and Summer Meetings, there will be an address by Professor S. S. Wilks entitled Sampling theory of order statistics.

NEW YORK CITY, HUNTER COLLEGE, October 25, 1947.

Abstracts must be in the hands of Associate Secretary T. R. Hollcroft, American Mathematical Society, 531 West 116th Street, New York 27, N.Y., not later than September 20. By invitation of the Committee to Select Hour Speakers for Eastern Sectional Meetings, there will be an address by Professor C. B. Allendoerfer entitled Global theorems in Riemannian geometry.

Abstracts must be in the hands of Associate Secretary R. H. Bruck, North Hall, University of Wisconsin, Madison 6, Wis., not later than October 24. By invitation of the Committee to Select Hour Speakers for Western Sectional Meetings, there will be an address by Professor Marshall Hall entitled Foundations of geometry—retrospect and prospect and an address by Professor Szolem Mandelbrojt entitled Analytic continuation and infinitely differentiable functions, a general principle.

PASADENA, CALIFORNIA, November 29, 1947.

Abstracts must be in the hands of Associate Secretary J. W. Green, University of California at Los Angeles, Los Angeles 24, Calif., not later than October 25. By invitation of the Committee to Select Hour Speakers for Far Western Sectional Meetings, there will be an address by Professor D. H. Lehmer.

Abstracts must be in the hands of Associate Secretary T. R. Hollcroft, American Mathematical Society, 531 West 116th Street, New York 27, N.Y., not later than November 24. The Annual Gibbs Lecture will be delivered by Professor P. M. Morse. By invitation of the Committee to Select Hour Speakers for Annual and Summer Meetings, there will be an address by Professor E. F. Beckenbach entitled Convex functions.

By agreement with the Society, members may also read papers before Section A of the American Association for the Advancement of Science at the meeting in Chicago, Ill., on December 29-30. Such papers will be listed on the program of the Annual Meeting of the Society, and will be recognized as read by title before the Society. Abstracts of papers whose authors desired to read them at Chicago must be received by Associate Secretary T. R. Hollcroft not later than November 24, with a clear statement of intention to read them there.

J. R. KLINE, Secretary of the Society
CONTENTS

Vol. 53, No. 8 | AUGUST, 1947 | Whole No. 575

Page

A ternary operation in distributive lattices. By Garrett Birkhoff and S. A. Kiss ........................................... 749
On relations existing between two kernals of the form \((a, b) + b\)
and \((b, a) + b\). By P. Hebroni ........................................... 753
On the representation of \(\sigma\)-complete Boolean algebras. By
L. H. Loomis ................................................................. 757
Some remarks and corrections to one of my papers. By Paul Erdős ................................................................. 761
Ramanujan's function \(\tau(n)\)—a congruence property. By R. P.
Bambah ................................................................. 764
A congruence property of Ramanujan's function \(\tau(n)\). By R. P.
Bambah, S. Chowla, and H. Gupta ........................................... 766
A new congruence property of Ramanujan's function \(\tau(n)\). By
R. P. Bambah and S. Chowla ........................................... 768
Topological Abelian groups with ordered norms. By R. C.
James, A. D. Michal, and Max Wyman ........................................... 770
Alternative regular rings without nilpotent elements. By
M. F. Smiley ................................................................. 775
A note on relatively prime sequences. By Richard Bellman ................................................................. 778
Parametric solution of linear homogeneous diophantine equa-
tions. By Wallace Givens ................................................... 780
Mertens' theorem and sequence transformations. By H. J.
Hamilton ................................................................. 784
A note on transforms of unbounded sequences. By Paul Erdős
and George Piranian ....................................................... 787
Note on power series. By M. A. Zorn ........................................... 791
On the convergence of double series. By Albert Wilansky ................................................................. 793
The differentiability and uniqueness of continuous solutions of
addition formulas. By Nelson Dunford and Einar Hille .............. 799
Some generalized hypergeometric polynomials. By Sister
Mary Celine Fasenmyer ........................................... 806
Some inequalities relating to conformal mapping upon canonical
slit-domains. By Bernard Epstein ........................................... 813
Note on affinely connected manifolds. By S. S. Chern ................................................................. 820
Rational harmonic curves. By Edward Kasner and John
DeCicco ................................................................. 824
Harmonic transformation theory of isothermal families. By
Edward Kasner and John DeCicco ........................................... 832
A generalization of Steiner's formulae. By E. Vidal Abascal ................................................................. 841

Articles for insertion in the BULLETIN should be typewritten, double spaced, and
the author should keep a complete copy. Papers in algebra and theory of numbers
should be sent to Saunders MacLane, American Mathematical Society, 531 West
116th Street, New York 27, N. Y.; in analysis to R. E. Langer, North Hall, University
of Wisconsin, Madison 6, Wis.; in other fields to Deane Montgomery, Department
of Mathematics, Yale University, New Haven, Conn. Reviews should be sent
to E. R. Lorch, Milbank Hall, Columbia University, New York 27, N. Y., and
items for Notes to BULLETIN OF THE AMERICAN MATHEMATICAL SOCIETY, 531 West
116th St., New York 27, N. Y. All communications relating to the odd-numbered
issues of the BULLETIN should be sent to E. B. Stouffer, University of Kansas,
Lawrence, Kan., and all other communications to the editors should be addressed
to the Managing Editor, Saunders MacLane, American Mathematical Society,
531 West 116th St., New York 27, N. Y.

The initial fees and annual dues of members of the Society (see this BULLETIN,
May, 1940, p. 322; and November, 1946, Part 2, p. 105) are payable to the Treasurer
of the Society, B. P. Gill, 531 West 116th St., New York 27, N. Y.
