JOURNALS PUBLISHED BY
THE AMERICAN MATHEMATICAL SOCIETY

TRANSLATION JOURNALS

Soviet Mathematics—Doklady is a bimonthly translation journal containing the entire pure mathematics section of the DOKLADY AKADEMIÍ NAUK SSSR, the Reports of the Academy of Sciences in the USSR. DOKLADY publishes 500 articles a year, each about four pages long.

Mathematics of the USSR—Izvestija, a bimonthly journal is a cover-to-cover translation of IZVESTIJA AKADEMIÍ NAUK SSSR SERIJA MATEMATIČESKAJA, published by the Academy of Sciences of the USSR. This is a journal of current research in all fields of pure mathematics.

Mathematics of the USSR—Sbornik is a monthly journal and is a cover-to-cover translation of MATEMATIČESKIÌ SBORNIK (NOVAJA SERIJA), published by the Moscow Mathematical Society and the Academy of Sciences of the USSR. This is a journal of current research in all fields of pure mathematics.

Theory of Probability and Mathematical Statistics is the cover-to-cover translation into English of the TEORIJA VEROJATNOSTEÍ I MATEMATIČESKAJA STATISTIKA published by Kiev University, beginning with the 1970 Soviet publication.

Vestnik of the Leningrad University (Mathematics) is the complete translation into English of the mathematics section of the VESTNIK LENINGRADSKOGO UNIVERSITETA, beginning with the Soviet publication of 1968. All fields of mathematics are covered.

Transactions of the Moscow Mathematical Society is a translation into English of TRUDY MOSKOVSKOGO MATEMATIČESKOGO OBSCESTVA which contains the results of original research in pure mathematics.

Proceedings of the Steklov Institute of Mathematics is a translation of the PROCEEDINGS OF THE STEKLOV INSTITUTE OF MATHEMATICS IN THE ACADEMY OF SCIENCES OF THE USSR. Issues contain book length articles or collections of articles pertaining to the same topic.

CONTENT AND SUBMISSION INFORMATION FOR RESEARCH JOURNALS

Mathematics of Computation is a quarterly journal devoted to original papers in numerical analysis, the application of numerical methods and high-speed calculator devices, the computation of mathematical tables, the theory of high-speed calculating devices, and other aids to computation. In addition, reviews and notes in these and related fields are published. Prospective publications should be sent to the Editor, JAMES H. BRAMBLE, Center for Applied Mathematics, 275 Olin Hall, Cornell University, Ithaca, NY 14853.

Memoirs of the American Mathematical Society is a bimonthly journal constituting a series of paperbound research tracts which are of the same general character as the papers published in the TRANSACTIONS. An issue of the MEMOIRS is made up of one or more numbers; a number contains either a single monograph or a group of cognate papers. Copy is supplied by the author; information on preparation of camera copy may be obtained by writing to the Editorial Department of the American Mathematical Society. Papers should be sent to the appropriate editor of TRANSACTIONS.
Proceedings of the American Mathematical Society is a monthly journal devoted entirely to research in pure and applied mathematics, principally to the publication of original papers of moderate length. A department called Shorter Notes was established for the purpose of publishing very short papers of an unusually elegant and polished character for which there is normally no other outlet.

Send papers directly to one of the editors listed under the subject field of the paper. The numbers in parentheses are the first two digits of major classifications from the 1980 Mathematics Subject Classification and describe the fields being handled by the editor.

**LOGIC AND FOUNDATIONS** (03 04)
Thomas J. Jech, Department of Mathematics, Pennsylvania State University, University Park, Pennsylvania 16802

**COMBINATORICS AND DISCRETE MATHEMATICS** (05 15)
Thomas H. BRYlawski, Department of Mathematics, University of North Carolina, Chapel Hill, North Carolina 27514

**COMMUTATIVE ALGEBRA** (06 12 13 14 15 18)
David Eisenbud, Department of Mathematics, Brandeis University, Waltham, Massachusetts 02154

**GENERAL ALGEBRA** (16 17 18 08)
Robert L. Wilson, Department of Mathematics, Rutgers University, New Brunswick, New Jersey 08903

**GROUP THEORY** (20)
David M. Goldschmidt, Department of Mathematics, University of California at Berkeley, Berkeley, California 94720

**ALGEBRAIC AND DIFFERENTIAL TOPOLOGY** (55 57 58)
Reinhard E. Schultz, Department of Mathematics, Purdue University, West Lafayette, Indiana 47907

**REAL VARIABLES** (26 28 40)
J. Jerry Uhl, Jr., Department of Mathematics, University of Illinois, Urbana, Illinois 61801

**COMPLEX VARIABLES AND NUMBER THEORY** (10 30 32)
W. E. Kirwan, Department of Mathematics, University of Maryland, College Park, Maryland 20742
Lawrence A. Zalcman, Department of Mathematics, University of Maryland, College Park, Maryland 20742

**DIFFERENTIAL EQUATIONS AND DYNAMICAL SYSTEMS** (33, 34, 35, 39, 49, 58)
George R. Sell, Department of Mathematics, University of Southern California, Los Angeles, California 90007

**GENERAL ANALYSIS** (41 42 43 44 45)
Richard R. Goldberg, Department of Mathematics, Vanderbilt University, Nashville, Tennessee 37235

**FUNCTIONAL ANALYSIS AND OPERATOR THEORY** (46 47)
Catherine L. Olsen, Department of Mathematics, State University of New York at Buffalo, Buffalo, New York 14214

**FUNCTIONAL ANALYSIS AND CONVEXITY** (46 52)
Robert R. Phelps, Department of Mathematics GN-50, University of Washington, Seattle, Washington 98195

**COMPLEX VARIABLES, FUNCTIONAL ANALYSIS AND OPERATOR THEORY** (30 46 47)
Donald E. Sarason, Department of Mathematics, University of California at Berkeley, Berkeley, California 94720

**LIE GROUPS AND GEOMETRY** (22 51 53)
Jeff Cheeger, Department of Mathematics, State University of New York at Stony Brook, Stony Brook, New York 11794

**GENERAL TOPOLOGY** (54)
David J. Lutzer, Department of Mathematics, Texas Tech University, Lubbock, Texas 79409
Doug W. Curtis, Department of Mathematics, Louisiana State University, Baton Rouge, Louisiana 70803

**PROBABILITY AND OTHER FIELDS** (31 60—99 inclusive)
Thomas G. Kurtz, Department of Mathematics, University of Wisconsin, Madison, Wisconsin 53706

All other communications should be addressed to the Managing Editor, Richard R. Goldberg, at the above address.
Transactions of the American Mathematical Society is a monthly journal devoted entirely to research in pure and applied mathematics and, in general, includes longer papers than those in the PROCEEDINGS. Manuscripts should be submitted to one of the following editors.

Two copies of mathematical papers intended for publication in the TRANSACTIONS or the MEMOIRS should be addressed to one of the editors. Subjects, and the editors associated with them, follow:

- Real analysis (excluding harmonic analysis) and applied mathematics to PAUL H. RABINOWITZ, Department of Mathematics, University of Wisconsin, Madison, WI 53706.
- Harmonic and complex analysis to R. O. WELLS, JR., Department of Mathematics, Rice University, Houston, TX 77001.
- Abstract analysis to W. A. J. LUXEMBURG, Department of Mathematics 253–37, California Institute of Technology, Pasadena, CA 91125.
- Algebra and number theory (excluding universal algebras) to MICHAEL ARTIN, Department of Mathematics, Room 2-239, Massachusetts Institute of Technology, Cambridge, MA 02139.
- Logic, foundations, universal algebras and combinatorics to JAN MYCIELSKI, Department of Mathematics, University of Colorado, Boulder, CO 80309.
- Topology to JAMES D. STASHEFF, Department of Mathematics, University of North Carolina, Chapel Hill, NC 27514.
- Global analysis and differential geometry to ALAN D. WEINSTEIN, Department of Mathematics, University of California, Berkeley, CA 94720
- Probability and statistics to STEVEN OREY, School of Mathematics, University of Minnesota, Minneapolis, MN 55455.

All other communications to the editors should be addressed to the Managing Editor, JAMES D. STASHEFF.
BULLETIN (New Series) of the American Mathematical Society

EDITORIAL BOARD FOR RESEARCH-EXPOSITORY ARTICLES
Lipman Bers Frederick W. Gehring
Felix E. Browder, Chairman Donald S. Ornstein
Paul J. Cohen Stephen Smale
Morton L. Curtis John T. Tate

EDITORIAL BOARD FOR RESEARCH ANNOUNCEMENTS
Charles L. Fefferman David Mumford
Melvin Hochster Julia B. Robinson
Robert P. Langlands Gian-Carlo Rota
Richard K. Lashof I. M. Singer
Henry P. McKean, Jr. Chairman
Hugh L. Montgomery François Trèves

BOOK REVIEW EDITOR: Meyer Jerison
MANAGING EDITOR: I. M. Singer

MANUSCRIPT, PROOF AND COPYING INFORMATION

SUBMISSION OF MANUSCRIPT

Articles submitted for publication should be typewritten and double spaced. The Manual for Authors, available from the Society, should be consulted for symbols and style conventions. Authors should take the greatest possible care in preparing the original manuscript. Hand drawn symbols are satisfactory, if clearly done; directions to the printer should be included where necessary on a separate sheet.

For Research-Expository Articles and Research Announcements, the first footnote should include subject classification numbers representing the primary and secondary subjects of the article. The 1980 Mathematics Subject Classification can be found in the December index volumes of Mathematical Reviews.

COPYRIGHT TRANSFER AGREEMENT

The signing of a Copyright Transfer Agreement is a requirement of publication in the BULLETIN. A copy of the agreement is sent to the authors upon receipt of a manuscript in the Providence Office of the Society; in case of joint authors, copies are sent to the author who is designated to receive galley proof. Authors are urged to return the form immediately to prevent delays in processing and publishing of the manuscript. The 1978 edition of the Manual for Authors has a description of Society policy concerning copyright and a copy of the agreement.

PUBLICATION CHARGES

Research Announcements carry a page charge of $40.00 per page to help defray the cost of publication. This amount is charged to the institution or to a contract supporting the research reported in the published paper. The publication charge policy of the United States Federal Council for Science and Technology (FCST) is reported on page 112 of the February, 1975 issue of the NOTICES of the American Mathematical Society. In no case is the author personally responsible for paying the page charge, nor is acceptance of the author's paper for publication dependent upon payment of the page charge.
REPRINTS AND ADDRESS CHANGES

Any inquiries concerning a paper which has been accepted for publication, including information regarding reprints or changes of address for mailing proof, should be sent directly to the Editorial Department, American Mathematical Society, P.O. Box 6248, Providence, Rhode Island 02940.

GALLEY PROOF

When a paper with more than one author has been accepted for publication, only one set of galley proof will be sent. Joint authors should, therefore, indicate which of them should receive galley proof in the event that the manuscript is accepted for publication.

COPYING AND REPRINTING

Individual readers of this publication, and nonprofit libraries acting for them are permitted to make fair use of the material, such as to copy an article for use in teaching or research. Permission is granted to quote brief passages from this publication in reviews provided the customary acknowledgement of the source is given.

Republication, systematic copying, or multiple reproduction of any material in this publication (including abstracts) is permitted only under license from the American Mathematical Society. Requests for such permission should be addressed to the Executive Director, American Mathematical Society, Box 6248, Providence, Rhode Island 02940.

The appearance of the code on the first page of an article in this journal indicates the copyright owner's consent for copying beyond that permitted by Sections 107 or 108 of the U.S. Copyright Law, provided that the copier pay the stated per copy fee through the Copyright Clearance Center, Inc. (For details write Copyright Clearance Center, Inc., 21 Congress Street, Salem, Massachusetts 01970.)
RESEARCH – EXPOSITORY PAPERS

Bifurcation and symmetry breaking in applied mathematics by D. H. Sattinger .......... 779
On the role of the Heisenberg group in harmonic analysis by Roger Howe .......... 821

RESEARCH ANNOUNCEMENTS

Levels in algebra and topology by Z. D. Dai, T. Y. Lam and C. K. Peng .................. 845
Riemann-Roch theorems for higher algebraic K-theory by Henri Gillet .................. 849
Spherical fibrations by J. L. Noakes ................................................................. 853
Varieties and universal models in the theory of combinatorial geometries by Jeff Kahn and Joseph P. S. Kung .................................................. 857
Undecidable diophantine equations by James P. Jones ................................. 859
$SK_1$ of $p$-adic group rings by Robert Oliver ............................................... 863
Blocks of rational representations of a semisimple algebraic group by Stephen Donkin 867

BOOK REVIEWS

Three-dimensional problems of the mathematical theory of elasticity and thermoelasticity by V. D. Kupradze, T. G. Gegelia, M. O. Basheleishvili, and T. V. Burchuladze—Reviewed by I. N. Sneddon ............................................................ 870
Analysis, manifolds and physics by Yvonne Choquet-Bruhat, Cecile de Witt-Morette, and Margaret Dillard-Bleick—Reviewed by Bent Ørsted ................................................... 878
Banach modules and functors on categories of Banach spaces by Johann Cigler, Viktor Losert, and Peter Michor—Reviewed by B. E. Johnson ................................. 885
GO-spaces and generalizations of metrizability by J. M. van Wouwe—Reviewed by David J. Lutzer .......................................................... 886
Equations of evolution by Hiroki Tanabe—Reviewed by Jerome A. Goldstein ........ 891
The theory of Lie superalgebras; an introduction by M. Scheunert—Reviewed by Lawrence J. Corwin ................................................................. 904
