Published quarterly in January, April, July, and October by the National Academy of Sciences—National Research Council, Prince and Lemon Sts., Lancaster, Pa., and Washington, D. C.

Entered as second-class matter July 29, 1943, at the post office at Lancaster, Pennsylvania, under the Act of August 24, 1912.

Editorial Committee
Division of Mathematics
National Academy of Sciences—National Research Council
Washington, D. C.

C. B. Tompkins, Chairman, University of California, Los Angeles, California
C. C. Craig, University of Michigan, Ann Arbor, Michigan
Alan Fletcher, University of Liverpool, Liverpool 3, England
Eugene Isaacson, New York University, New York 3, New York
C. V. L. Smith, Ballistic Research Labs., Aberdeen Proving Ground, Maryland
A. H. Taub, University of Illinois, Urbana, Illinois

Information to Subscribers

The journal is published quarterly in one volume per year with issues numbered serially since Volume I, Number 1. Subscriptions are $5.00 per year, single copies $1.50. Back issues are available as follows:

- Volume I (1943–1945), Nos. 10 and 12 only are available; $1.00 per issue.
- Volume II (1946–1947), Nos. 13, 14, 17, 18, 19, and 20 only available; $1.00 per issue
- Volume III (1948–1949), Nos. 21–28 available. $4.00 per year (four issues), $1.25 per issue
- Volume IV (1950 and following), all issues available; $5.00 per year, $1.50 per issue

All payments are to be made to the National Academy of Sciences and forwarded to the Publications Office, 2101 Constitution Avenue, Washington, D. C.

Microcard Edition

Volumes I–X (1943–1956), Nos. 1–56 are now available on Microcards and may be purchased from The Microcard Foundation, Box 2145, Madison 5, Wisconsin, at a cost of $20.00 for the complete set. Future volumes will be available on Microcards in the year following original publication.

Information to Contributors

All contributions intended for publication in Mathematical Tables and Other Aids to Computation and all books for review should be addressed to C. B. Tompkins, Department of Mathematics, University of California, Los Angeles 24, California. The author should mention the name of an appropriate editor for his paper if this is convenient.
CLASSIFICATION OF TABLES

A. Arithmetical Tables. Mathematical Constants
B. Powers
C. Logarithms
D. Circular Functions
E. Hyperbolic and Exponential Functions
F. Theory of Numbers
G. Higher Algebra
H. Numerical Solution of Equations
I. Finite Differences. Interpolation
J. Summation of Series
K. Statistics
L. Higher Mathematical Functions
M. Integrals
N. Interest and Investment
O. Actuarial Science
P. Engineering
Q. Astronomy
R. Geodesy
S. Physics, Geophysics, Crystallography
T. Chemistry
U. Navigation
V. Aerodynamics, Hydrodynamics, Ballistics
W. Economics and Social Sciences
X. Numerical Analysis and Applied Mathematics
Z. Calculating Machines and Mechanical Computation
CONTENTS

APRIL 1958

On the Iterative Solution of the Matrix Equation $AX^2 - I = 0$ ........................................... Pentti Laasonen 109

Extension of Lindow's Tables for Numerical Differentiation Using Newton-Stirling and Newton-Bessel Differences ............................................................... Herbert E. Salzer & Genevieve M. Kimbro 133

TECHNICAL NOTES AND SHORT PAPERS ................................................................. 141

Table of Integers Not Exceeding 10,000,000 That are not Expressible as the Sum of Four Tetrahedral Numbers ................................................................. Herbert E. Salzer & Norman Levine 141

Groups of Primes Having Maximum Density ......................................................... John Leech 144

REVIEWS AND DESCRIPTIONS OF TABLES AND BOOKS ........................................ 145

Forsythe 60, CRC Standard Mathematical Tables 61, Tokyo Numerical Computation Bureau 62, Reynolds 63, Faucher 64, Peltier 65, Karmazina & Kurochkina 66, Salzer 67, Salzer & Roberson 68, Rosay 69, Abramov 70, Fröberg 71, Fröberg & Wilhelmsson 72, Nicholas 73, Sternberg, Shipman, & Zohn 74, Chu, Clark, & Churchill 75, Doetsch 76, von Ardenne 77, Etkin 78, Canning 79, Canning 80, Kozmetsky & Kircher 81, Purdue University Computer Research Program 82, Milne 83, Stock 84, Kojima 85

TABLE ERRATA ........................................................................................................ 163

Le Centre National D'Études Des Télécommunications 261, Fröberg 262, Kaprekar 263, Kaprekar 264

NOTES ......................................................................................................................... 165

National Bureau of Standards and National Science Foundation Training Program in Numerical Analysis for Senior University Staff, Spring 1959.

CORRIGENDA ............................................................................................................ 166

Hitchcock

LANCASTER PRESS, INC., LANCASTER, PA.
