Mathematical Tables
and other
Aids to Computation

Published Quarterly
by the
National Academy of Sciences—National Research Council
Editorial Committee
Division of Mathematics
National Academy of Sciences—National Research Council
Washington, D. C.

H. Polachek, Chairman, Applied Mathematics Laboratory, David Taylor Model Basin, Washington 7, D. C.
C. C. Craig, University of Michigan, Ann Arbor, Michigan
Alan Fletcher, University of Liverpool, Liverpool 3, England
Eugene Isaacson, New York University, New York 3, New York
D. Shanks, Applied Mathematics Laboratory, David Taylor Model Basin, Washington 7, D. C.
C. V. L. Smith, Goddard Space Flight Center, National Aeronautics and Space Administration, Washington 25, D.C.
A. H. Taub, University of Illinois, Urbana, Illinois
C. B. Tompkins, University of California, Los Angeles, California
J. W. Wrench, Jr., Applied Mathematics Laboratory, David Taylor Model Basin, Washington 7, D. C.

Information to Subscribers
The journal is published quarterly in one volume per year with issues numbers serially since Volume I, Number 1. Starting with January, 1959 subscriptions are $8.00 per year, single copies $2.50. Back issues are available as follows:
Volume I (1943–1945), Nos. 10 and 12 only are available; $1.00 per issue.
Volume II (1946–1947), Nos. 13, 14, 17, 18, 19, and 20 only available; $1.00 per issue.
Volume III (1948–1949), Nos. 21–28 available. $4.00 per year (four issues), $1.25 per issue.
Volume IV (1950 through 1958), all issues available; $5.00 per year, $1.50 per issue.
Bedford Square, London W. C. 1

Microcard Edition
Volumes I–X (1943–1956), Nos. 1–56 are now available on Microcards and may be purchased from the Microcard Foundation, Box 2145, Madison 5, Wisconsin, at a cost of $20.00 for the complete set. Future volumes will be available on Microcards in the year following original publication.

Information to Contributors
All contributions intended for publication in Mathematical Tables and Other Aids to Computation and all books for review should be addressed to H. Polachek, Technical Director, Applied Mathematics Laboratory, David Taylor Model Basin, Washington 7, D. C. The author may suggest an appropriate editor for his paper.

Subscriptions, address changes, business communications and payments should be sent to:
The Printing and Publishing Office
The National Academy of Sciences
2101 Constitution Avenue
Washington 25, D. C.
