

EMS Series in Industrial and Applied Mathematics

The *EMS Series in Industrial and Applied Mathematics* publishes high quality advanced texts and monographs in all areas of Industrial and Applied Mathematics. Books include those of a general nature as well as those dealing with the mathematics of specific applications areas and real-world situations. While it is intended to disseminate scholarship of the highest standard, authors are encouraged to make their work as accessible as possible.

Instructions for authors

To become an author, we encourage you to submit your manuscript to one of the members of the editorial board or directly to the publisher at info@ems-ph.org. We offer attractive publishing conditions and attach great importance to careful production including copy-editing and printing.
