From Frenet to Cartan: The Method of Moving Frames

Jeanne N. Clelland, *University of Colorado, Boulder*

Written in a reader-friendly style, this introduction to the method of moving frames as developed by Cartan includes detailed guidance regarding the use of computer algebra system Maple™ in performing many of the computations involved in the book's exercises.

Graduate Studies in Mathematics, Volume 178; 2017; 414 pages; Hardcover;
ISBN: 978-1-4704-2952-2; List: US\$73; AMS members US\$58.40; Order code GSM178

Modular Forms A Classical Approach

Henri Cohen, *Université Bordeaux, France* and
Fredrik Strömberg, *University of Nottingham, United Kingdom*

This comprehensive textbook guides the reader from the basics of modular forms through several advanced topics with an emphasis on explicit formulas, classical methods, and analytic aspects.

Graduate Studies in Mathematics, Volume 179; 2017; 700 pages; Hardcover;
ISBN: 978-0-8218-4947-7; List: US\$94; AMS members US\$75.20; Order code GSM179

Advanced Modern Algebra Third Edition, Parts 1 and 2

Joseph J. Rotman, *University of Illinois at Urbana-Champaign*

The first part of this new edition consists of two courses: Galois theory and Module theory; and the second part explores many topics mentioned in the first part in greater depth, including group theory, representation theory, homological algebra, categories, and commutative algebra.

Part 1: Graduate Studies in Mathematics; 2017; 706 pages; Hardcover;
ISBN: 978-1-4704-1554-9; Order code GSM165

Part 2: Graduate Studies in Mathematics; 2017; 558 pages; Hardcover;
ISBN: 978-1-4704-2311-7; Order code GSM180

Set: Graduate Studies in Mathematics; 2017; approximately 1254 pages; Hardcover;
ISBN: 978-1-4704-4174-6; List: US\$174; AMS members US\$139.20; Order code GSM165/180

A First Course in Sobolev Spaces Second Edition

Giovanni Leonori, *Cornell University, Pittsburgh, PA*

The second edition of this two-part book about differentiations of functions focuses more on higher order derivatives and has the potential to be used as two separate textbooks, one for an advanced undergraduate course in functions of one variable and one for a graduate course on Sobolev functions.

Graduate Studies in Mathematics, Volume 181; 2017; approximately 731 pages; Hardcover;
ISBN: 978-1-4704-2921-8; List: US\$94; AMS members US\$75.20; Order code GSM181

Nonlinear PDEs A Dynamical Systems Approach

Guido Schneider, *Universität Stuttgart, Germany* and
Hannes Uecker, *Carl von Ossietsky Universität Oldenburg, Germany*

This four-part introductory textbook of nonlinear dynamics of PDEs uses an example-oriented presentation and develops new mathematical tools, giving insight into some important classes of nonlinear PDEs and nonlinear dynamics phenomena which may occur in PDEs.

Graduate Studies in Mathematics, Volume 182; 2017; 584 pages; Hardcover;
ISBN: 978-1-4704-3613-1; List: US\$99; AMS members US\$79.20; Order code GSM182

Separable Algebras

Timothy J. Ford, *Florida Atlantic University, Boca Raton*

Accessible to graduate students who have finished a first course in algebra, this comprehensive introduction to the theory of separable algebras over commutative rings includes necessary foundational material, useful exercises, and many nontrivial examples.

Graduate Studies in Mathematics, Volume 183; 2017; 637 pages;
Hardcover; ISBN: 978-1-4704-3770-1; List: US\$94; AMS members US\$75.20;
Order code GSM183
