

The Statistical and Applied Mathematical Sciences Institute (Samsi) is soliciting applications from statistical and mathematical scientists for up to 6 postdoctoral positions for the Samsi Research Programs for 2018-2019: **Program on Statistical, Mathematical, and Computational Methods for Precision Medicine (PMED)** and **Program on Model Uncertainty: Mathematical and Statistical (MUMS)**. Appointments will begin in **August** 2018 and will typically be for two years, although they can also be arranged for one year. Appointments are made jointly between Samsi and one of its partner universities, where teaching opportunities may be available. The positions offer extremely competitive salaries, travel stipend, and health insurance benefits.

Criteria for selection of Samsi Postdoctoral Fellows include demonstrated research ability in statistical and/or applied mathematical sciences, excellent computational skills and the ability to communicate both verbally and in written form. Finally, the preferred applicant will have a strong interest in the Samsi program areas offered. The deadline for full consideration is **December 1, 2017**, although later applications will be considered as resources permit.

Please specify which of the two Samsi research programs you are applying for in your cover letter and why you believe you would be a good fit for Samsi and the program you choose.

To apply, go to mathjobs.org: **SAMSIPD2018 Job #10496**
