ERRATUM TO "A UNIQUENESS THEOREM FOR SUPERHARMONIC FUNCTIONS IN R"

J. L. SCHIFF

Concerning my paper A uniqueness theorem for superharmonic functions in R, which has recently appeared in Proc. Amer. Math. Soc. 84 (1982), 362–364, I would like to report the following errata:

p. 362: 1. 4 of Abstract: $C^1$ should read $C^2$.
p. 364: 1. 2: $C^1$ should read $C^2$.
p. 364: 1. 4–5 from bottom: delete words "more restrictive".

The author wishes to thank Dr. P. J. Rippon for bringing these corrections to his attention.
