SUBSCRIPTION INFORMATION. The 2009 subscription is for Numbers 78 and 79. Beginning in 2004, *Theory of Probability and Mathematical Statistics* is accessible from www.ams.org/journals/. Subscription prices for 2009 are US\$719 list; US\$575 institutional member. Upon request, subscribers to paper delivery of this journal are also entitled to receive electronic delivery. For paper delivery, subscribers outside the United States and India must pay a postage surcharge of US\$6; subscribers in India must pay a postage surcharge of US\$13. Expedited delivery to destinations in North America US\$10; elsewhere US\$24. A late charge of 10% of the subscription price will be imposed upon orders received from nonmembers after January 1 of the subscription year.

BACK NUMBER INFORMATION. For back issues see www.ams.org/bookstore.

Subscriptions and orders should be addressed to American Mathematical Society, P.O. Box 845904, Boston, MA 02284-5904, USA. *All orders must be accompanied by payment.* Other correspondence should be addressed to 201 Charles Street, Providence, RI 02904-2294, USA.

COPYING AND REPRINTING. Material in this journal may be reproduced by any means for educational and scientific purposes without fee or permission with the exception of reproduction by services that collect fees for delivery of documents and provided that the customary acknowledgment of the source is given. This consent does not extend to other kinds of copying for general distribution, for advertising or promotional purposes, or for resale. Requests for permission for commercial use of material should be addressed to the Acquisitions Department, American Mathematical Society, 201 Charles Street, Providence, Rhode Island 02904-2294, USA. Requests can also be made by e-mail to reprint-permission@ams.org.

Theory of Probability and Mathematical Statistics (ISSN 0094-9000) is published by the American Mathematical Society, 201 Charles Street, Providence, RI 02904-2294, USA and is mailed from Providence, Rhode Island. Postmaster: Send address changes to Theory of Probability and Mathematical Statistics, American Mathematical Society, 201 Charles Street, Providence, RI 02904-2294, USA.

CONTENTS

O. B. Gontar , Asymptotic behavior of SIMEX estimators in an errors-in-variables linear structural regression model	1
S. V. Degtyar’ , Analytical problems of the asymptotic behavior of Markov functionals. II	15
B. A. Zalesky and P. V. Lukashevich , A Bayesian classifier	23
S. M. Iacus and N. Yoshida , Estimation for the discretely observed telegraph process	37
D. O. Ivanenko , Existence of a limit distribution of a solution of a linear inhomogeneous stochastic differential equation	49
M. V. Kartashov , Inhomogeneous perturbations of a renewal equation and the Cramér–Lundberg theorem for a risk process with variable premium rates .	61
Selly Kane and Alexander Melnikov , On investment and minimization of shortfall risk for a diffusion model with jumps and two interest rates via market completion	75
Yu. V. Kozachenko and E. V. Turchin , Conditions for the uniform convergence of expansions of φ -sub-Gaussian stochastic processes in function systems generated by wavelets	83
Aleksey M. Kulik , Difference approximation of the local times of multidimensional diffusions	97
G. L. Kulinich and A. V. Yershov , Convergence of a sequence of Markov chains to a diffusion type process	115
E. O. Lutsenko, O. V. Marinich, and I. K. Matsak , Some applications of the Gnedenko–Korolyuk method to empirical distributions	133
R. Maïboroda , Estimation of mean positions and concentrations from observations of a two-component mixture of symmetric distributions	147
A. L. Malenko and O. G. Kukush , An optimal joint estimator for regression parameters and the dispersion parameter in errors-in-variables nonlinear models	157
A. M. Oleksiïchuk and R. V. Proskurovs’kiï , An estimate for the mean error probability of a Bayesian criterion for testing hypotheses in the problem of cryptanalysis of a combined gamma generator with nonuniform noise	167
V. M. Radchenko , Minimum variance hedging in a model with jumps at Poisson random times	175
Georgii Shevchenko , A generalization of Mil’shtein’s theorem for stochastic differential equations	191

UKRAINIAN CONTENTS*

<i>О. Б. Гонтар</i> Асимптотична поведінка SIMEX оцінок у лінійній структурній моделі регресії з похибками у змінних	1
<i>С. В. Дегтярь</i> Аналітичні проблеми асимптотики марковських функціоналів. II	13
<i>В. А. Залесский, П. В. Лукашевич</i> Байесовский классификатор	19
<i>S. M. Iacus, N. Yoshida</i> Estimation for the discretely observed telegraph process	32
<i>Д. О. Іваненко</i> Існування граничного розподілу розв'язку лінійного неоднорідного СДР	43
<i>М. В. Карташов</i> Неоднорідне збурення рівняння відновлення та теорема Крамера–Лундберга для процесу ризику зі змінними інтенсивностями премій	54
<i>Селли Кане, Александр Мельников</i> О решении задачи инвестирования и минимизации риска дефицита капитала для диффузионной модели со скачками и двумя процентными ставками с помощью пополнения рынка	66
<i>Ю. В. Козаченко, Є. В. Турчин</i> Умови рівномірної збіжності розкладів φ -субгауссових випадкових процесів по системам функцій, породженим вейвлетами	74
<i>Олексій М. Кулик</i> Різницева апроксимація локальних часів багатовимірних дифузій	86
<i>Г. Л. Кулініч, А. В. Єршов</i> Збіжність послідовності ланцюгів Маркова до процесів дифузійного типу	103
<i>Є. О. Луценко, О. В. Маринич, І. К. Мацак</i> Деякі застосування методу Гнеденка–Королюка до емпіричних розподілів	119
<i>Р. Майборода</i> Оцінка середніх положень та концентрацій по спостереженнях двокомпонентної суміші симетричних розподілів	132
<i>А. Л. Маленко, О. Г. Кукуш</i> Оптимальна сумісна оцінка параметрів регресії і параметра розсіяння у нелінійних моделях з похибками у змінних	141

*The American Mathematical Society scheme for transliteration of Cyrillic may be found at the end of index issues of *Mathematical Reviews*.

<i>А. М. Олексійчук, Р. В. Проскуровський</i>	
Оцінка середньої ймовірності помилки байєсівського критерію для перевірки гіпотез в задачі криптоаналізу комбінувального генератора гами з нерівномірним рухом	151
<i>В. М. Радченко</i>	
Хеджування з найменшою варіацією в моделі зі стрибками в пуассонові випадкові моменти	159
<i>Георгій Шевченко</i>	
Про одне узагальнення теореми Мільштейна для стохастичних диференціальних рівнянь	175
